

## PLA 3D Printed Parts Sandblasting Post Processing

### Our Product Introduction

for more products please visit us on [precision-cncparts.com](http://precision-cncparts.com)

#### Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

#### Product Specification

- Size: Customized
- Lead Time: 7-10 Days
- Tolerance:  $\pm 0.2\text{mm}$
- Color: White
- Printing Technology: FDM
- Application: Industrial
- Printing Layer: 0.2mm
- MOQ: 1 Piece
- Highlight: **PLA 3D Printed Parts, Sandblasting 3D Printed Parts**

## Product Description

### Product Description:

3D Printed Parts are advanced three-dimensional printed goods that offer superior surface finish, faster lead time, and a wide range of materials and post-processing options. Our 3D printed parts are made of high-grade PLA material and feature a smooth surface finish, with a lead time of 7-10 days. We offer post-processing services such as sandblasting to further enhance the surface finish of our 3D printed parts for industrial applications. 3D printing is the perfect solution for producing high-quality three-dimensional parts quickly and cost-effectively.

### Features:

Product Name: Three-Dimensional Parts/ Three-Dimensional Products/ 3D Printing Products

Surface Finish: Smooth

Post-Processing: Sandblasting

Material: PLA

Tolerance:  $\pm 0.2\text{mm}$

Lead Time: 7-10 Days

### Technical Parameters:

Lead Time	7-10 Days
Post-Processing	Sandblasting
Surface Finish	Smooth
Printing Technology	FDM
File Format	STL, IGS, STP
Application	Industrial
Tolerance	$\pm 0.2\text{mm}$
Design Software	SolidWorks
Color	White
MOQ	1 Piece

### Applications:

ywy 3D Printed Parts are high-quality components, with model number ywy222, produced in guangdonghuizhou. They are designed with Solidworks software from STL, IGS, and STP files, and come in white color with PLA material and a  $\pm 0.2\text{mm}$  tolerance. These components are ideal for a variety of applications and scenarios, including 3D printed goods, 3D printed components, and other 3D printed components. ywy 3D Printed Parts are the perfect solution for your needs.

### Customization:

3D Printed Parts

Brand Name: **ywy**

Model Number: **ywy222**

Place of Origin: **Guangdong, Huizhou**

Material: **PLA**

Size: **Customized**

Tolerance:  **$\pm 0.2\text{mm}$**

Application: **Industrial**

Post-Processing: **Sandblasting**

We specialize in producing high-quality 3D Printing Products and Three-Dimensional Prints, such as 3D Printed Parts. Our 3D Printing Products are customized according to your needs, and we guarantee an accuracy of  $\pm 0.2\text{mm}$ . We use PLA material for our 3D Printed Parts, as it is environmentally friendly and cost effective. After 3D Printing, we also provide sandblasting post-processing to make sure our 3D Printed Parts have smooth surface finish.

### FAQ:

Q1:What is 3D Printed Parts?

A1:3D Printed Parts is a product made by ywy which is with the brand name ywy and model number ywy222, and it is made in guangdong huizhou.

Q2:What materials are used to make 3D Printed Parts?

A2:3D Printed Parts is made of high-performance polymers material.

Q3:How accurate is 3D Printed Parts?

A3:3D Printed Parts is capable of achieving an accuracy of about 0.1mm.

Q4:What is the lead time for 3D Printed Parts?

A4:The lead time for 3D Printed Parts is about 5-7 days.

Q5:What applications can 3D Printed Parts be used for?

A5:3D Printed Parts can be used for prototyping, rapid manufacturing, and other applications.
