

## STL Industrial White 3D Printed Parts Customized

### Our Product Introduction

for more products please visit us on [precision-cncparts.com](http://precision-cncparts.com)

#### Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

#### Product Specification

- Application: Industrial
- Design Software: SolidWorks
- Surface Finish: Smooth
- Tolerance:  $\pm 0.2\text{mm}$
- MOQ: 1 Piece
- File Format: STL, IGS, STP
- Printing Layer: 0.2mm
- Post-Processing: Sandblasting
- Highlight: **White 3D Printed Parts,**  
**Industrial 3D Printed Parts**

## Product Description

### Product Description:

3D Printed Parts are three-dimensional prints created with advanced printing technology. Our 3D printed parts are designed and manufactured with precision and accuracy. We use PLA material and 0.2mm printing layers to achieve superior surface quality and dimensional accuracy. The files are compatible with STL, IGS, and STP formats, making it possible for different types of industrial applications.

We offer 3D printed parts with a minimum order quantity of 1 piece. Our 3D printed goods are superior in terms of quality, accuracy, and consistency. The three-dimensional parts are designed particularly for industrial applications and are highly efficient and reliable.

We guarantee high-end 3D printed parts with utmost accuracy and precision. Our 3D printed parts are perfect for a wide range of industrial applications, and you can trust us to deliver the best quality 3D printed goods.

### Features:

Product Name: 3D Printed Parts

Surface Finish: Smooth

Design Software: SolidWorks

Application: Industrial

Material: PLA

File Format: STL,IGS,STP

### Technical Parameters:

Parameter	Value
Size	Customized
Printing Technology	FDM
Surface Finish	Smooth
Lead Time	7-10 Days
Printing Layer	0.2mm
Color	White
Design Software	SolidWorks
Tolerance	±0.2mm
Material	PLA
Application	Industrial

### Applications:

ywy 3D Printed Parts with model number ywy222 is an innovative product made by specialized three-dimensional printing technology.

This product is made of PLA material, which is highly durable and has a tolerance of  $\pm 0.2\text{mm}$ . It is designed by SolidWorks software and customized size is available to meet your needs. It is produced in Guangdong Huizhou and MOQ is 1 piece. ywy 3D Printed Parts are widely used in many different fields, such as medical, aerospace, automotive, industrial, and consumer markets, to create three-dimensional components, goods, and parts with extreme precision and accuracy.

ywy 3D Printed Parts are a perfect solution to many complex and intricate problems that require precise and high-quality parts. In these industries, 3D printed parts are used to create components that are too complex to be produced by traditional methods, as well as parts that require high accuracy and precision, such as medical implants and aerospace components. Moreover, 3D printed parts are also used for prototyping and product development to test the performance and reliability of a product before mass production.

ywy 3D Printed Parts are ideal for those who need accurate and reliable parts quickly. With ywy 3D Printed Parts, you can create three-dimensional components with the highest precision and accuracy. It is also cost-effective, as the production process is faster and more efficient. Furthermore, it is also environment-friendly, as no hazardous chemicals are used in the production process.

### Customization:

#### Customized 3D Printed Parts by YWY

Brand Name: YWY

Model Number: YWY222

Place of Origin: Guangdong, Huizhou

Color: White

Printing Layer: 0.2mm  
Post-Processing: Sandblasting  
Tolerance:  $\pm 0.2\text{mm}$   
Lead Time: 7-10 Days  
Specialize in Three-Dimensional Prints, Three-Dimensional Parts, 3D Printed Parts

### FAQ:

Q: What is the Brand Name of the 3D Printed Parts?  
A: The Brand Name of the 3D Printed Parts is ywy.  
Q: What is the Model Number of the 3D Printed Parts?  
A: The Model Number of the 3D Printed Parts is ywy222.  
Q: Where is the 3D Printed Parts made?  
A: The 3D Printed Parts is made in Guangdong, Huizhou.  
Q: What type of material are the 3D Printed Parts made of?  
A: The 3D Printed Parts are made of PLA, ABS or PC.  
Q: What is the maximum size of the 3D Printed Parts?  
A: The maximum size of the 3D Printed Parts is 200mm x 200mm x 200mm.
