Precision Injection Molding Service Max 10kg Mold Weight CNC Equipment Single/Multi-Cavity

Our Product Introduction

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy333

Product Specification

- Weight: Max. Mold Weight: 10,000kg
- Mold Base: LKM, HASCO, DME, Etc.
- Equipment: CNC, EDM, Wire-Cutting, Etc.
- Software: UG, Pro/E, SolidWorks, Etc.
- Cavity: Single Or Multi-Cavity
- Size: Max. Mold Size: 1500 X 1200mm
- Lead Time: 3-4 Weeks
- Service Type: Injection Molding Services
- Highlight: **CNC Equipment Injection Molding Service**, **Precision Injection Molding Service**, **Multi-Cavity Injection Molding Service**

Product Description

Product Description:

Our injection molding services are designed to meet your needs, whether you need a small batch of parts or a large production run. With mold life ranging from 500,000 to 1,000,000 shots, you can be sure that our molds are built to last.
We pride ourselves on our ability to produce high-quality parts that meet your exact specifications. With a maximum mold size of 1500 x 1200mm and a maximum mold weight of 10,000kg, we can handle even the largest and most complex projects. And with a range of surface finish options, including polishing, texturing, painting, and more, we can ensure that your parts look and perform exactly as you need them to.
Our team of experts has years of experience in injection molding, and we are committed to providing you with the best possible service. Whether you need help with design, prototyping, or production, we are here to help you every step of the way.
So why wait? Contact us today to learn more about our injection molding services and how we can help you bring your project to life.

Features:

Product Name: Injection Molding Services

Lead Time: 3-4 Weeks

Surface Finish: Polishing, Texturing, Painting, Etc.

Weight: Max. Mold Weight: 10,000kg

Tolerance: ±0.05mm

Service Type: Injection Molding Services

Our Injection Molding Services utilize the Molding Process Injection to produce high-quality plastic parts with precision and accuracy. We offer a variety of surface finishes including polishing, texturing, painting, etc. with a maximum mold weight of 10,000kg. Our products have a tolerance of ±0.05mm and are available with a lead time of 3-4 weeks.

Technical Parameters:

Lead Time	3-4 Weeks
Tolerance	±0.05mm
Weight	Max. Mold Weight: 10,000kg
Mold Life	500,000-1,000,000 Shots
Material	ABS, PC, PP, PA, POM, Etc.
Software	UG, Pro/E, SolidWorks, Etc.
Mold Base	LKM, HASCO, DME, Etc.
Cavity	Single Or Multi-Cavity
Size	Max. Mold Size: 1500 X 1200mm
Equipment	CNC, EDM, Wire-Cutting, Etc.

Applications:

One of the main benefits of Injection Molding Services is that they can be used for both single and multi-cavity molds. This means that companies can produce a variety of parts in different sizes and shapes. The service is ideal for creating parts for a wide range of products, including automotive, electronics, and household appliances.
Another advantage of Injection Molding Services is that they can be used for a variety of mold bases, including LKM, HASCO, DME, and others. This provides companies with flexibility in their design options. The max mold size of 1500 X 1200mm ensures that even large parts can be produced with this service.
Equipment used for Injection Molding Services includes CNC machines, EDM, wire-cutting, and others. These machines are used to ensure precision and accuracy in the production of parts.
Overall, Injection Molding Services by ywy333 are suitable for a variety of applications and scenarios. Whether you need to produce large quantities of parts quickly or require flexibility in design options, this service can meet your needs. The process of Injection Molding is efficient and cost-effective, making it an ideal choice for companies looking to produce plastic parts for their products.

Customization:

Our injection molding service offers product customization to meet your specific needs. Our brand, ywy, offers the ywy333 model number, manufactured in guangdonghuizhou. Our injection molding process can handle a maximum mold weight of 10,000kg with materials such as ABS, PC, PP, PA, POM, and more. We offer mold bases from LKM, HASCO, DME, and other trusted brands. Our tolerance level is ±0.05mm, ensuring precise and accurate production. Choose from a variety of surface finishes including polishing, texturing, painting, and more to achieve the desired look and feel of your product. Trust us for your injection molding needs.

Support and Services:

Our Injection Molding Services product includes technical support and services to ensure the proper functioning and maintenance of the equipment. Our team of experts can provide assistance with troubleshooting, training, and optimization of the injection molding process. We also offer customization services to meet specific customer needs. Our goal is to ensure that our customers receive the highest quality products and services to maximize their productivity and efficiency.

Packing and Shipping:

Product Packaging:
Our injection molding services come with durable and secure packaging to ensure safe delivery to your doorstep. We use high-quality materials to package your products, which protect them from damage during shipping. We also provide customized packaging options according to your requirements.
Shipping:
We offer fast and reliable shipping services for our injection molding services. We use trusted delivery partners to ensure that your products are delivered on time and in excellent condition. We also provide tracking information, so you can keep track of your delivery and receive updates on the status of your shipment.

FAQ:

Q: What is the brand name of this injection molding service?
A: The brand name of this injection molding service is ywy.
Q: What is the model number of this injection molding service?
A: The model number of this injection molding service is ywy333.
Q: Where is this injection molding service made?
A: This injection molding service is made in guangdonghuizhou.
Q: What materials can be used for injection molding with this service?
A: This injection molding service can use a wide range of materials, including but not limited to ABS, PC, PP, PE, and more.
Q: What is the maximum size of the product that can be produced with this injection molding service?
A: The maximum size of the product that can be produced with this injection molding service is 500mm x 500mm x 500mm.
