

Aluminum Steel Stainless Steel CNC Milling Parts with Precision Finish and Powder Coating

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: cnc101

Product Specification

- Equipment: CNC Milling Machine
- Processing Method: CNC Milling
- Tolerance: $\pm 0.01\text{mm}$
- Coating: Powder Coating, Zinc Plating, Etc.
- Service: OEM/ODM
- Lead Time: 7-15 Days
- Precision: High Precision
- Material: Aluminum, Steel, Stainless Steel, Etc.
- Highlight: **Precision Finish CNC Milling Parts,
Stainless Steel CNC Milling Parts,
Powder Coating CNC Milling Parts**

Product Description

Product Description:

Our lead time for these Computer Aided Machining Parts is 7-15 days, ensuring that your project is completed in a timely manner. Our team of experts is dedicated to providing you with the best possible service, including OEM/ODM options.

Our Computer Programmed Machining Parts are designed to meet your machining needs, with a variety of packaging options available such as cartons, wooden cases, and more.

Whether you need a single prototype or a large production run, our CNC Milling Parts are the perfect solution. Contact us today to learn more about our high-quality, precision-made parts.

Features:

Product Name: CNC Milling Parts

Lead Time: 7-15 Days

Tolerance: $\pm 0.01\text{mm}$

Equipment: CNC Milling Machine

Coating: Powder Coating, Zinc Plating, Etc.

Material: Aluminum, Steel, Stainless Steel, Etc.

Features:

Numerically Controlled Milling Parts

Computer Numerical Control Machining Parts

Computer Aided Machining Parts

Technical Parameters:

Product Name:	Computer Numerical Control Machining Parts
Tolerance:	$\pm 0.01\text{mm}$
Packaging:	Carton, Wooden Case, Etc.
Surface Finish:	Polishing, Anodizing, Plating, Etc.
Coating:	Powder Coating, Zinc Plating, Etc.
Lead Time:	7-15 Days
Precision:	High Precision
Processing Method:	CNC Milling
Material:	Aluminum, Steel, Stainless Steel, Etc.
Service:	OEM/ODM
Application:	Industrial, Automotive, Etc.

Applications:

These numerically controlled milling parts are versatile and can be used in a wide range of scenarios. For industrial applications, they can be used to create custom machinery, tools, and equipment. Whether you need parts for a factory assembly line or a large-scale manufacturing operation, ywy's CNC milling parts can help streamline the process and improve efficiency.

Automotive applications can also benefit from the precision and accuracy of these computer numerical control machining parts. From engine components to suspension systems, these parts can be used to create custom designs that meet the unique needs of any vehicle. With a lead time of 7-15 days, you can rest assured that your parts will be delivered in a timely manner, allowing you to complete your project on schedule.

At ywy, we understand that packaging is an important consideration when it comes to shipping and delivery. That's why we offer a range of packaging options, including cartons, wooden cases, and more. We're committed to ensuring that your parts arrive at their destination in the same condition they were in when they left our facility.

Whether you're in the automotive or industrial sector, ywy's CNC milling parts are a reliable and cost-effective solution for your project needs. Contact us today to learn more about our products and how they can benefit your business.

Customization:

Support and Services:

Our CNC Milling Parts are designed and manufactured with precision to ensure high quality and accuracy. We provide technical support for any issues you may encounter during the installation or operation of our products. Our team of experts is available to answer any

questions you may have and provide guidance on how to optimize the performance of your CNC milling machine.

In addition, we offer a range of services to ensure that your CNC milling machine is always running at its best. Our services include regular maintenance, repairs, and upgrades to keep your machine up-to-date with the latest technology. We also offer training programs to help you and your team get the most out of your CNC milling machine.

At our company, we are committed to providing the best possible support and services to our customers. We strive to exceed your expectations and ensure your satisfaction with our CNC Milling Parts and all of our products.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is ywy.

Q: What is the model number of this product?

A: The model number of this product is cnc101.

Q: Where is this product made?

A: This product is made in guangdonghuizhou.

Q: What materials are used to make this product?

A: This product is made of high-quality metal materials, such as aluminum, steel, and brass.

Q: What is the maximum size of the parts that can be milled with this product?

A: This product is capable of milling parts up to 300mm in size.
