

High-Performance 3D Printed Parts $\pm 0.2\text{mm}$ Tolerance for Industrial Applications

Our Product Introduction

For more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy222

Product Specification

- Printing Technology: FDM
- File Format: STL,IGS,STP
- Size: Customized
- Lead Time: 7-10 Days
- Color: White
- Surface Finish: Smooth
- Material: PLA
- Tolerance: $\pm 0.2\text{mm}$
- Highlight: **Industrial 3D Printed Parts,
0.2mm Tolerance 3D Printed Parts,
High Performance 3D Printed Parts**

Product Description

Product Description:

Our three-dimensional parts are made using PLA, a biodegradable and eco-friendly material that is perfect for a wide range of applications. Whether you need parts for a small-scale project or a large-scale prototype, we can work with you to create the perfect design and size to fit your needs.

Our team of experts use industry-leading design software such as SolidWorks to create detailed and precise 3D models that can be printed with unmatched accuracy. We ensure that every layer is printed at a thickness of 0.2mm, resulting in a smooth and polished finish.

Choose from a variety of color options to match your project needs. Our 3D printed components come in white as a default option, but we can also print in a range of other colors upon request.

Whether you're a professional in the industry or simply an enthusiast, our three-dimensional parts are the perfect addition to your project. Trust in our expertise and experience to deliver the highest-quality 3D printed components for your needs.

Features:

Product Name: 3D Printed Parts

Lead Time: 7-10 Days

Application: Industrial

Color: White

Design Software: SolidWorks

Material: PLA

Features:

Three-Dimensional Parts

3D Printed Components

3D Printed Parts

Technical Parameters:

Product Attribute	Value
Product	3D Printed Parts
Size	Customized
MOQ	1 Piece
Color	White
Material	PLA
File Format	STL, IGS, STP
Printing Layer	0.2mm
Tolerance	±0.2mm
Application	Industrial
Design Software	SolidWorks
Post-Processing	Sandblasting

Applications:

Our three-dimensional parts are suitable for a variety of applications, making them a versatile addition to any production line. Here are just a few scenarios where our 3D printed parts can be utilized:

Prototyping: Our MOQ of 1 piece makes it easy to create prototypes without committing to large quantities. This allows for cost-effective testing and product development.

Manufacturing: Our 3D printed parts can be used for producing small batches of products in a timely and efficient manner. This is especially useful for products with complex designs or those with unique specifications.

Repair and Maintenance: Our 3D printed parts can be used to replace damaged or worn-out components in machinery and equipment, allowing for a quick and cost-effective solution.

The ywy ywy222 is a reliable option for those looking for high-quality 3D printed parts. Its use of FDM printing technology ensures that the parts are durable and long-lasting. With its versatile file format options, it can accommodate a wide range of designs and specifications.

Customization:

Support and Services:

Our technical support team is available to assist with any questions or issues you may encounter while using our 3D Printed Parts product. We provide support for the setup and installation of our software and hardware, as well as troubleshooting for any technical problems you may experience.

In addition to technical support, we also offer a range of services to help you get the most out of your 3D Printed Parts product. Our services include customization and optimization of parts, as well as training and education on using our product effectively and efficiently. Whether you are a new user or an experienced professional, our technical support and services team is dedicated to ensuring your success with our 3D Printed Parts product.

Packing and Shipping:

Product Packaging:

All 3D printed parts are carefully packed in bubble wrap and placed in a sturdy cardboard box to ensure safe delivery.

Shipping:

We offer worldwide shipping for our 3D printed parts. Shipping rates vary depending on the destination and the size of the order. Orders are typically processed and shipped within 1-3 business days. Delivery times may vary depending on the destination, but typically range from 5-10 business days for standard shipping and 2-3 business days for expedited shipping.

FAQ:

A: The brand name of this product is **ywy**.

2. Q: What is the model number of the 3D Printed Parts product?

A: The model number of this product is **ywy222**.

3. Q: Where is the 3D Printed Parts product made?

A: This product is made in **guangdonghuizhou**.

4. Q: What materials are used to make the 3D Printed Parts?

A: Our 3D Printed Parts are made with high-quality, durable materials such as ABS, PLA, and PETG.

5. Q: Can the 3D Printed Parts be customized?

A: Yes, we offer customization services for our 3D Printed Parts. Customers can provide their own designs or specifications, and we will work with them to create a custom product that meets their needs.
