Precision Tolerance ±0.01mm CNC Turning Milling Parts for Industrial Applications

Basic Information

- Place of Origin:
- Brand Name: ywy
- Model Number:
- Minimum Order
 Quantity:
- Price: 0.68-6.68
- Packaging Details: Bubble paper box packaging

- Delivery Time: 10-15
- Supply Ability: long-term

Product Specification

	Parts , Precision CNC Turning Milling Parts, ±0.01mm Tolerance CNC Turning Milling Parts
Highlight:	Industrial Applications CNC Turning Milling
Drawing Format:	PDF, IGS, STP, DWG, Etc.
Application:	Automotive, Aerospace, Etc.
Surface Treatment:	Polishing, Anodizing, Zinc Plating, Etc.
• OEM/ODM:	Accept
Lead Time:	7-15 Days
• Tolerance:	±0.01mm
Advantage:	High Precision, Fast Delivery, Etc.
• MOQ:	1 Piece

Product Description:

We accept various drawing formats such as PDF, IGS, STP, DWG, and other formats to ensure that our clients' specifications are always met. Our CNC Turning Manufacturing Parts are the result of high-quality fabrication processes that ensure durability, reliability, and longevity.

We offer a variety of surface treatments such as polishing, anodizing, zinc plating, and other treatments to enhance the aesthetic appeal of our CNC Turning Fabricated Parts. The CNC Turning Manufacturing Parts are designed to withstand the toughest conditions, ensuring that they are suitable for various applications.

Our lead time is 7-15 days, ensuring that our clients receive their orders on time. Our CNC Turning Machining Parts are designed to provide high performance and efficiency, making them an excellent choice for industries that require accurate and precise components. Our CNC Turning Fabricated Parts are designed to provide maximum strength and durability, ensuring that they can withstand extreme conditions and heavy usage. We use the latest CNC Turning Manufacturing Parts technology to ensure that our products are of the highest quality and meet the exact specifications of our clients.

In conclusion, our CNC Turning Milling Parts are the best in the market, designed to provide high precision, accuracy, and durability. We offer a variety of surface treatments, drawing formats, and lead time, ensuring that our clients receive the best products within their schedule. Our CNC Turning Machining Parts are perfect for various applications, making them a perfect choice for industries that require accurate and precise components. Order our CNC Turning Fabricated Parts today and experience the highest quality products in the market.

Features:

Product Name: CNC Turning Milling Parts

Surface Treatment: Polishing, Anodizing, Zinc Plating, Etc.

Product Size: Customized

Advantage: High Precision, Fast Delivery, Etc.

Lead Time: 7-15 Days

Shipping: Express, Air, Sea

Keywords: CNC Milling Process Parts, CNC Turning Manufacturing Parts, CNC Turning Machining Parts

Technical Parameters:

Lead Time	7-15 Days
Drawing Format	PDF, IGS, STP, DWG, Etc.
Surface Treatment	Polishing, Anodizing, Zinc Plating, Etc.
Application	Automotive, Aerospace, Etc.
Package	Carton, Wooden Case, Etc.
Material	Stainless Steel, Aluminum, Brass, Etc.
Shipping	Express, Air, Sea
Tolerance	±0.01mm
Product Size	Customized
Advantage	High Precision, Fast Delivery, Etc.

Applications:

Automotive Industry

The CNC Turning Process Parts and CNC Turning Machining Parts are widely used in the automotive industry. The ywy's cnc202 parts can be applied in the manufacturing of engine parts, suspension parts, and braking systems. These parts need to have high precision, accuracy, and quality. The CNC Milling Manufacturing Parts can also be used for customizing cars and motorcycles, making them unique and more efficient.

Aerospace Industry

The aerospace industry requires precision and accuracy for parts used in the manufacturing of aircraft and spacecraft. The CNC Turning Milling Parts can be used in the production of parts such as turbine blades, landing gear, and hydraulic systems. The ywy's cnc202 parts are durable and can withstand high-temperature and pressure conditions, making them suitable for aerospace applications. Medical Industry

The medical industry requires high-quality parts that meet stringent specifications. The CNC Turning Process Parts and CNC Turning Machining Parts can be used in the manufacturing of surgical instruments, implants, and medical devices. The CNC Milling Manufacturing Parts can also be used in the production of prosthetics and orthotic devices. The ywy's cnc202 parts are safe and reliable, making them ideal for medical applications.

Other Industries

The CNC Turning Milling Parts can also be used in the manufacturing of industrial equipment, electronics, and consumer goods. The ywy's cnc202 parts can be used in the production of gears, bearings, and shafts. These parts can also be used in the production of

household appliances, such as washing machines and refrigerators.

The ywy's cnc202 parts are available for purchase in guangdonghuizhou, with a minimum order quantity of 1. The price ranges from 0.68-6.68 and is packed using bubble paper box packaging. The delivery time is 10-15 days, and the supply is long-term. The package includes carton, wooden case, etc. The shipping options are express, air, and sea.

Customization:

With a delivery time of 10-15 days and long-term supply ability, we can accommodate your production schedule. Our CNC Turning Manufactured Parts are suitable for a wide range of applications, including Automotive, Aerospace, and more. We accept OEM/ODM orders and can work with PDF, IGS, STP, DWG, and other drawing formats.

We use high-quality materials such as Stainless Steel, Aluminum, Brass, and more in our CNC Turning Milling process. Our team of experts can assist you with product customization to ensure that the end result meets your exact specifications. Contact us today to learn more!

Support and Services:

The CNC Turning Milling Parts product comes with comprehensive technical support and services. Our team of experts is available to provide technical assistance and answer any questions you may have about the product. We offer a range of services, including installation, maintenance, and repair of the product. Additionally, we provide training services to help you and your team get the most out of the product. Our goal is to ensure that our customers have a seamless experience with our product and are satisfied with the level of support and service we provide.

Packing and Shipping:

Product Packaging:

All CNC Turning Milling Parts will be packed in a sturdy cardboard box.

The parts will be securely wrapped in bubble wrap to prevent any damage during shipping.

Each box will be labeled with the product name, quantity, and any other important information.

Shipping:

We offer worldwide shipping for all orders.

Orders will be processed and shipped within 1-3 business days.

We use trusted shipping carriers to ensure that your order arrives on time and in good condition.

You will receive a tracking number once your order has shipped so that you can track its progress.

Please note that shipping times may vary depending on your location and any customs regulations.

FAQ:

Here are some frequently asked questions about our CNC Turning Milling Parts:

Q: What is the brand name of this product?

A: The brand name of this product is ywy

- Q: What is the model number of this product?
- A: The model number of this product is cnc202.
- Q: Where is this product made?
- A: This product is made in guangdonghuizhou.
- Q: What is the minimum order quantity for this product?
- A: The minimum order quantity for this product is 1
- Q: What is the price range for this product?
- A: The price range for this product is from 0.68 to 6.68.
- Q: What is the packaging details for this product?
- A: The packaging details for this product is bubble paper box packaging.
- Q: What is the delivery time for this product?
- A: The delivery time for this product is 10-15 days.
- Q: What is the supply ability for this product?
- A: We have long-term supply ability for this product.
